Job title: Marketing and Business Development Assoc.

Your Responsibilities:

- Manage social media channels to strengthen Cosmocycle’s outreach
- Manage the content creation process by writing or sharing pieces of interest to students (online platform, press releases)
- Work with the CEO in developing Cosmocycle’s brand voice and personality
- Support the creation and execution of creative campaigns
- Support the development of marketing programs that build relationships with various partners
- Contribute to various business operations as necessary
- And since “Marketing is no longer about the stuff that you make, but about the stories you tell!” (Seth Godin) tell the world your own story as a college student through our platform!

Your profile:

- You are a student or recent alumni of a top-tier undergraduate or graduate program
- You have a passion to join a small start-up and build a business from the ground up
- You are looking to boost your experience in marketing
- You have the ability to support marketing decisions and measure results
- You are an active member in student communities
- You are a Fun personality and an outside the box thinker

Perks:

- A chance to join a high-potential startup in its infancy
- Valuable hands-on work experience
- Choice to work from home or at office
- Receiving school credit might be an option
- Your ideas matter and you will see them come to light
- Variety of work
- A fun time with our small team
**Job title: Software engineer**

**Your Responsibilities:**
- Support the Python/Django and MongoDB system on AWS
- Help us enhance our web platform
- Help design and build full-stack applications
- Help us reduce our Build-Measure-Learn cycle time
- Test the platform for performance
- Support the team in maintaining our existing applications
- Troubleshoot any fixes needed

**Your profile:**
- Ability to enjoy and work in a small team
- You are a current student of a top university majoring in Computer Science/Computer Engineering/IT
- You are proficient in Python Django
- You have web development experience (HTML5, CSS, JavaScript)
- You are a high energy person, willing to learn new technologies

**Perks:**
- A chance to join a high-potential startup in its infancy
- Valuable hands-on work experience
- You can occasionally work from home
- Receiving school credit might be an option
- Your ideas matter and you will see them come to light
- Variety of work
- A fun time with our small team

This is an unpaid internship, either full-time or part-time.

Send along your resume at **friends@cosmocycle.com**!
