Pre-Requisites
To study in Dublin, students must have completed their Core courses (MK 323, IS 323, OM 323, FE 323). UCD’s admissions criteria require study abroad students to have an overall GPA minimum of 3.0. Students with a GPA below a 3.0 may be considered on a case by case basis and should contact BU Study Abroad before applying. Students who do not have at least a 2.8 GPA will only be authorized to take courses in the Quinn Business School.

Program Timeline
This program is offered in the spring semester only. It begins mid-January and ends early June. Students take courses at University College Dublin from January to May and finish their stay by completing an internship.

The University College Dublin courses listed on the back of this sheet have been approved by Questrom faculty as equivalent to Questrom courses. Students attending this study abroad program should choose from the provided list of courses, or have an alternate course pre-approved by the Questrom Undergraduate Academic and Career Development Center.

Important Notes
1. In general, students may take up to two concentration courses abroad per concentration. Also, they may take up to one “A List” course abroad per concentration. The list of available courses on the reverse side of this sheet shows what courses are available and how they may be applied toward each concentration.
2. Independent concentrators, who petition to take three or more management courses at the University College Dublin, must take an additional 300-level management elective of their choice (for a total of five electives) before graduation to make up for the multiple three-credit management courses.
3. Students not dual concentrating should ask an advisor if they need an additional free elective course to meet minimum credit requirements for graduation. This will not slow students’ progression toward graduation as they are already taking an additional class in Dublin.
4. Students are unable to take HUB units through the University College Dublin/Quinn School of Business.
