

DIVERSITY PROGRAMS & ASSOCIATIONS

Companies truly value diversity in their companies as it creates an environment that fosters diverse perspectives, rich ideas and a broader base of skill sets that help businesses thrive. For this reason, many companies have invested resources into creating leadership, rotational and internship programs specifically for underrepresented minorities (deadlines vary—most are in fall).

This resource shares a sample of these programs across various companies, locations and business functions. It also lists conferences and professional associations that also have a focus in connecting diverse professionals for networking, skill building and more!
