# Feedback Fruits for Interactive Media, Peer Review, and Student Reflection
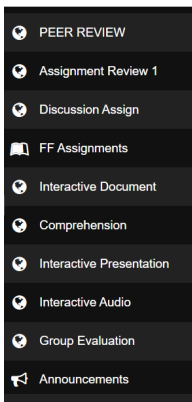

Feedback Fruits is a platform with different types of assignments that you can give to students with the goal of making media more interactive, providing peer feedback, and student reflection with automated feedback and grading criteria.

How it Works

Click the Headings for Instructions

FEEDBACK FRUIT TOOLS SUITE

Determine which type of activity you would like to do with your students. You can create multi-step assignments that include review, response, and reflection.

A tab for Feedback Fruits with corresponding assignments can be added to your Questrom Tools site.

FEEDBACK FRUIT SUPPORT PAGE

Get started on your own or work with the ITS team to align your assignment with Feedback Fruits Tools and Features.
