# Using Yellow Dig for Class Discussion

Yellow Dig was designed for students to continue discussing class topics in a social media-like setting, while earning points toward class credit.

How it Works

Click the Headings for Instructions

SET UP YOUR YELLOW DIG COMMUNITY

Yellow Dig communities are grouped by class. Request Yellow Dig to be added to your Questrom Tools site from ITS.

MAKE YELLOW DIG ONE GRADED ASSIGNMENT

Students will have multiple opportunities to interact with the community and conversations, thus adding to their overall points over the course of a semester.

STUDENTS EARN POINTS FOR POSTS AND COMMENTS.

Rather than all students responding to the same prompt, students should be encouraged to post their own course relevant content and respond to each other's posts. Encourage the students to use tags and hashtags to make their posts searchable.
